# Place Value

I can represent a two-digit number as tens and ones.

| Base Ten Blocks   | Place Value   | Number        |
|---|---|---------------|
|    | <div> <div>4</div> <div>tens</div> </div> <div> <div>6</div> <div>ones</div> </div> | <div>46</div> |
|   | <div> <div>2</div> <div>tens</div> </div> <div> <div>5</div> <div>ones</div> </div> |               |
|  | <div> <div></div> <div>tens</div> </div> <div> <div></div> <div>ones</div> </div>   |               |
|   | <div> <div></div> <div>tens</div> </div> <div> <div></div> <div>ones</div> </div>   | <div>19</div> |
|   | <div> <div>8</div> <div>tens</div> </div> <div> <div>0</div> <div>ones</div> </div> |               |
|  | <div> <div></div> <div>tens</div> </div> <div> <div></div> <div>ones</div> </div>   |               |
|   | <div> <div></div> <div>tens</div> </div> <div> <div></div> <div>ones</div> </div>   | <div>63</div> |
