

Name: \_\_\_\_\_

# The Water Cycle

Word Bank: condensation, precipitation, sun, clouds, evaporation

One day, the \_\_\_\_\_ warmed up a lake. Water began to turn into vapor. This is called \_\_\_\_\_. The vapor rose and turned into \_\_\_\_\_ in the sky. That's called \_\_\_\_\_. Soon, the clouds became full, and it started to rain. This is called \_\_\_\_\_!

## Challenge Question:

Why is the sun important in the water cycle?
